SOLID STAINLESS STEEL FAUCETS
COLLECTIONS

Timeless, Quality and Lead Free

In 2008 Hua Xing decided to produce high quality stainless steel faucets to reach those consumers willing to look for the highest quality and reliability products available on the market. In order to achieve these results, Hua Xing has made a fundamental change from traditional chromed brass constructed faucets to solid Stainless Steel material faucets. These can provide your bathroom and kitchen fixtures last for a lifetime, even after decades of heavy usage.

Hua Xing stainless steel faucets come in numerous attractive designs as well. From traditional to contemporary, we have the style that will match your décor perfectly.
